INSPECTION STATIONS IN NEBRASKA

NDOT Highway Safety Office

Inspection Stations provide information to parents, caregivers, and providers about how to install properly a child safety seat. Child Passenger Safety technicians will provide hands-on education on installation, making sure you have the right seat, that the seat is secured properly, and reduce misuse in your vehicle. Inspection Stations use federal funds to ensure every Nebraskan has access to a child passenger safety seat, proper installation, and education.

In addition to the Inspection Stations, there are also community Check-Up Events set in public areas (i.e., library, shopping mall, and auto dealership). You can find the next Check-Up Event in your area. For more information about Safe Kids Nebraska visit: https://www.safekidsnebraska.org/

Review the list to find an Inspection Station near you. Children up to age two must ride rear-facing and all children up to age eight must ride correctly secured in a federally approved child safety seat, it's the law.
